

The situation in the jungle changes constantly as you can imagine the list is subject to change so we'll update as often as we can.

This list is compiled from other groups, Fabienne's advice and observation from the last trip.

Highlighted items are urgent.

Some things are not easy to transport so might be better to source in Calais?

Very LIMITED SPACE in the jungle so we need to distribute effectively but fairly if Fabienne's or other organization storages are too full. Otherwise you might have to bring them back until needed.

We'll also need find effective ways to send on to Greece, Macedonia & Hungary or anywhere else needed.
